ARUN DISTRICT COUNCIL

FILE NOTE

DATE: 2-9-11 **TIME:** 9:30

REF: CL/13/11/NMA

ADDRESS: Little Furlong, Long Furlong

ACTIVITY: Tel in / out Counter visit Other (specify)

The application seeks permission for an NMA to alter fenestration details for the new dwelling. This is considered to be acceptable. However when scaling the proposed plans against these approved under CL/22/10. This identifies a disparity between the plans. Discussion with the agent suggests that this issue maybe ~~due~~ a result of scales to which the plans were printed at. The agent states there were no changes made to the plans, except for the fenestration, to those submitted via the planning portal in the submission of CL/22/10. The changes in scale are not considered to be a material change to the building approved and therefore also acceptable as an NMA.

FURTHER ACTION REQUIRED:

OFFICER INITIALS: PC.
