Dear Sirs

Mistletoe Farm Planning Permission CM/10/18/OUT

As we understand it this application will result in a huge increase in traffic levels in Horsemere Green Lane. We strongly disagree and would like it noted that without massive improvement to the surrounding roads, including width and surface condition the extra traffic generated will cause serious traffic hold-ups without benefit to the general environment.

We are also very concerned that so many trees and shrubs will be removed resulting in a loss of habitat for birds and wildlife.

Please place this objection in the appropriate file.

Anna and John Hammond
