

18 Wooldridge Walk
Climping
West Sussex
23.05.18

Dear Sir/Madam

Re: Mistletoe Farm Horsemere Green Lane Climping
Planning Permission CM/10/18/OUT (03/04/2018)

We strongly oppose the above planning application on the following grounds –

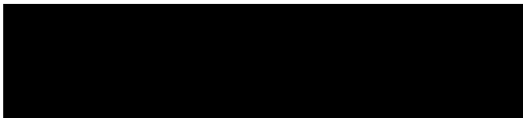

To build these dwellings would necessitate the chopping down of some wonderful mature trees which would have a devastating effect on the surrounding landscape. These trees also act as a barrier against the noise from the adjoining industrial estate.

The traffic problems would be increased greatly in Horsemere Green Lane with this proposal of 5 properties and 13 parking spaces as even with the volume of traffic now it is extremely dangerous to exit on to the main road.

This proposal would be detrimental to the outlook of our existing area and cause harm to the natural landscape of our immediate vicinity.

We trust you will take into consideration all of the above comments.

Yours faithfully
