FAO Mr Baeza.

Dear Mr Baeza

I entered comments online today @ 1.40pm but I don't think they were submitted successfully as I got no confirmation of receipt. So I am having to compose my opposition again to you now. I am happy for all of my comments to be shown this time but will you kindly say that it is from the Almond family at 4 Wooldridge Walk Climping.

We are still opposed to building works being granted against the above planning application number, as the value of properties 1-4 Wooldridge Walk will be affected negatively. Privacy and security will definitely be compromised and we find this frightening.

If planning is granted then there definitely will be a snowball effect and within the next 15 years Climping village will become a town with all the farmland and beautiful greenery reduced to rubble.

Where are all these people going to work? Climping will need offices, schools and doctors etc. There is no infrastructure available to cope with all of this. Traffic has increased significantly in West Sussex during the last 10 years and unless a miracle occurs pretty quickly and Moses can part the sea along the South East coastline then we will be in major trouble.

The poor wildlife will be ousted. Not everyone wants to live in a town with its hustle and bustle and soon all the countryside and villages will be gone and the UK will be known as BLAND to the rest of the World.

I am sure that Arun DC will make the right decision concerning this application and will leave Climping village as it is now.

The Almond Family.
