Hi Mark

Sorry for not consulting you before on this one. I am writing up the report and I think I'll need you to look at this one please. Greenspace have provided comments and sue mentioned that your view would be worthy on the impact to trees. The applicants have submitted a tree survey and have not identified any of the affected trees to be of high visual merit. I was wondering if you could cast your eye please. I was hoping to get report tied up next week. I understand if your priorities mean that you can't meet that.

Thanks
