Thank you for your internet representation made on 17th May 2018 which has been recorded as **'an objection'** with the comments as follows:

Austin Divall have been operating on this site 24/7 without planning permission for many years, and the noise from the site has been really intrusive. Even though myself and several neighbours have tried to negotiate with them over loud noises and nighttime working, most noises still continue, In my latest meeting with them on Thursday the 10th May, we brought up one case in point regarding very loud angle grinding at 8.30pm one evening, even though we had been promised a 6pm curfew. The reply was "We had a job to finish £ This itself clearly demonstrates complete contempt for the residents, and gaining retrospective planning permission will give them a licence to do as they please. My house is just 80m from their unit J, and working Saturday's, Sunday's Bank holiday's is just not acceptable so close to a residential area. For these reasons, I strongly object.

Unfortunately it is not possible for the council to respond to each representation individually but your views will be considered before the application is determined and I shall write to inform you of any decision made.

If the application is to be determined at the Development Control Committee and your letter has been received after the agenda has been published, you will not receive a separate letter notifying you of the date of the meeting and the procedures for public speaking. In such circumstances, it is recommended that you track the progress of the application on the website or telephone for further information. Please be advised that any comments received after the the Development Control Agenda has been produced will be reported to the meeting. Please also note that only a small number of all planning applications are determined at the Development Control Committee, most are determined by officers under delegated power.
