Subject: Planning Application CM/12/18/PL Rudford Estate

I am writing to object to this application because the applicant wishes to operate their extremely noisy machinery 24/7 and this is totally unacceptable.

Already this company flouts the planning regulations it was originally put under and Arun refuses or seems incapable of upholding its own planning current requirements so you should be putting far more stringent rules down on this next application and making sure that they adhere to them properly in future.

This is very relevant to the people who have to suffer the loud banging and crashing that emanates from this site, particularly in the summer months and early hours of the morning when we can get no peace from it. We have a right to demand that the council protect our right to enjoy our home environment in peace. Do your job properly Arun.
