Hi Anita,

Thank you for forwarding this.

In relation to the previous query regarding the presence of made ground on site, the potential risk to human health posed by this element has not been suitably quantified, therefore it is not possible to recommended that the condition be discharged. Furthermore, the asbestos identified

on-site (as detailed in TS Asbestos' Asbestos Survey report, unreferenced, dated June 2020) will need to be managed through implementation of a suitable and robust asbestos management plan (as per points three and four of condition no.6 of CM/19/17/PL). I am more than happy to discuss these requirements directly with the applicant and/or consultant if necessary.

Many thanks,

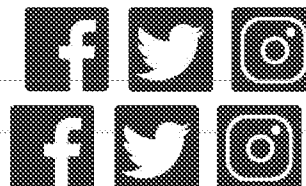

Kate.

Hi Kate,

Please see attached asbestos survey to go with the other info sent under separate cover. Can you let have your comments on discharging the condition ?

Thanks

Anita
