Subject: Application: CM/15/14PD Hobbs Farm Polytunnel Building

Anita

I am unable to provide a comment on these proposals due to the lack of relevant information in respect of food safety & odour control issues.

I would require:

- full dimensions of the proposed building, in particularly the layout of the food storage, preparation seating and bar areas
- the provision of adequate customer toilets and their location
- Ventilation specifications, whilst the rural locality does reduce the likelihood of cooking odour annoyance, the closest domestic receptor is within range to the potential effects of odours, therefore, I would require confirmed methods and data on proposed control measures.
- Proposed method of disposal of grey water and foul waste from the building

Geoff
