**Subject:** Bald Kitchen fast food drive through - application\_Ref\_No=CM/16/21/PL

Hello Neil,

I am writing to object to the precedent that will be set if the Bald Kitchen is allowed to proceed with their fast-food drive through.

If it is permitted then one day McDonalds will be able to set up there.

I am in full support of local businesses creating jobs, but the proposed site is not fit for purpose. Already the main road is congested making it nigh on impossible to cross at times, this will only make that worse as well as add to the noise and air pollution. We should be avoiding adding the weight of more cars to our village roads. Take a ride down to Bognor and witness the congestion at the McDonalds that is at the Oldlands roundabout. Traffic is regularly backed up in all directions because of the queue entering and exiting the site. All but one of those roads coming into the roundabout are 2-lane. The Bald Kitchen will surely make an already bad traffic situation worse. And as has been said we live in a little village, if we allow fast food restaurants what will be next?

We are desperately trying to save the countryside not place more pressure on it.
