Re: CM/17/21/PL

Dear Mr Crowther,

It appears that plans for building plots at the rear of 4, 5, 6 & 7 Wooldridge Walk have been amended following your recent visit to these properties. Though these amendments are a better option behind 5, 6 & 7 Wooldridge Walk, it seems there has been no change to the plan for behind number 4, it is a huge 2 storey house with 2 large bedroom windows facing West and overlooking the bungalow at 4 Wooldridge Walk.

On your recent visit you may have seen the new build at the rear of 2 & 3 Wooldridge Walk, a huge 2 storey monstrosity masquerading as a chalet bungalow. This building is not in keeping with the neighbouring properties of Wooldridge Walk but was allowed by the planning department as it was described as a chalet bungalow. We are now living with the consequences of that decision despite the very many objections raised by local people which were ignored or overruled.

That aside, the building behind 2 & 3 Wooldridge Walk has 2 upper floor bedroom windows which directly overlook number 4 Wooldridge Walk. It is incredible to think that no one has looked the new build plans in depth and in conjunction with plans already approved to ensure neighbouring properties or protected.

The Parish Council made objections regarding the plans agreeing that the new builds were far too close to the bungalows in Wooldridge Walk - quoting neighbourhood Plan Policy CPN11 - and their letter of 17th May reiterates this objection.

I hope these comments for objection to the plan as it now stands are taken into consideration to protect the privacy of No 4 Wooldridge Walk as well as for those in No's 5, 6 & 7.

Mrs R Perry
