Subject: Climping - Drainage submission draft

CAUTION: This email originated from outside of the organisation. You should take extra care when clicking links or opening attachments - if you are unsure the content is safe contact the IT Helpdesk before clicking or opening.

Hi Jessica,

I hope you are well and had a good weekend.

Apologies for the delay getting this across to you, but please see the Dropbox link below for the amended and updated documents following on from the meeting with the drainage engineers:

<https://www.dropbox.com/scl/fo/uhhrt7dq8tnu777zsppwr/AFT7Gd87TF1KNmWsSXLve-A?rlkey=6gyk1vivy3r6op6og2wyg7koc&st=sqq09jnl&dl=0>

Included in this submission is:

- **Technical note** - listing the material changes made following on from the meeting
- **Planning Submission Document** - listing all the documents submitted and those to replace RCP (previous engineers) drawings
- **Revised and amended documents/plans** separated into the below subfolders:
 - Drawings
 - Email from IWNL
 - Floatation Calculations
 - Hydrobrake Details
 - Infiltration Testing and GW monitoring
 - Maintenance Manual
 - SW Calculations

Please note that the document referenced as “Hydrostatic uplift calculations the Swale” in the Technical Note is labelled as the “Swale Liner Design Sheet” in the Floatation Calculations folder.

Thank you and please let me know if there is any further information you require.

Kind regards,
Peter
