TECHNICAL INFORMATION

SKYPOD - PITCHED PVC-U SKYLIGHTS

Made from an aluminium frame with PVC covers and fittings, the SkyPod is a cost effective way to enhance your property.

The architectural design with no crestings or finials gives the SkyPod a sleek look with clean sight lines.

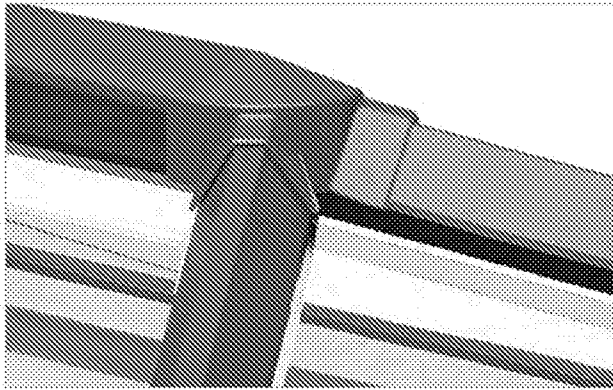

Skypod also has a fixed pitch of 20 degrees.

SIZES AVAILABLE

SkyPod is available in a wide range of standard sizes as well as made to measure, so you can create a skylight that complements the individuality of your home. Skypod® is suitable for a wide range of projects such as flat-roofed extensions, orangeries, new builds, kitchen-diners and garage conversions.

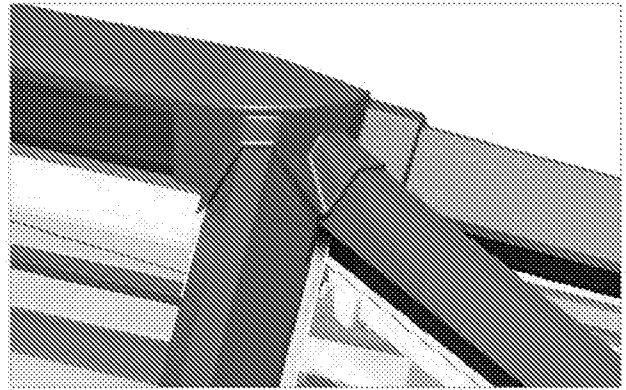

Available in sizes up to 1.5m x 6.5m in our two bar option, and 2.75m x 7.75m in our 3 bar option. Skypod is ideal for roofs of all sizes.

Now you can create a skylight that complements the individuality of your home with our range of glass colours. Self-cleaning, temperature controlled glass is included as standard.

2-BAR

Available up to
1.5m x 6.5m

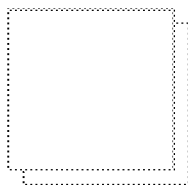

3-BAR

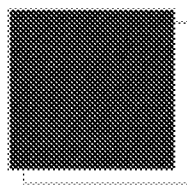

Available up to
2.75m x 7.75m

COLOURS AVAILABLE

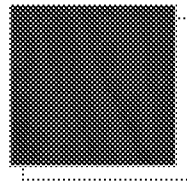

Skypod is available in a range of profile colours below;

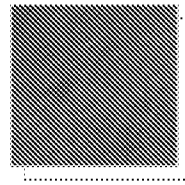

WHITE
White interior

**ANTHRACITE
GREY**
White interior

ROSEWOOD
White interior

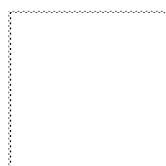

**GOLDEN
OAK**
White interior

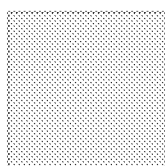

All SkyPods are white inside with the exception of Anthracite Grey which can be White or Grey inside.

GLASS AVAILABLE

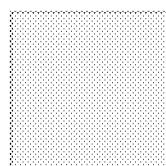

Skypod is available with the following glass options;

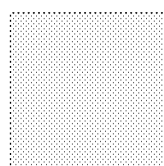

BLUE

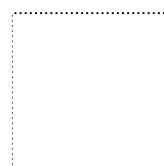

NEUTRAL

BRONZE

AQUA

CLEAR

Please note images are for indication only as different display screens and resolutions will show them differently.

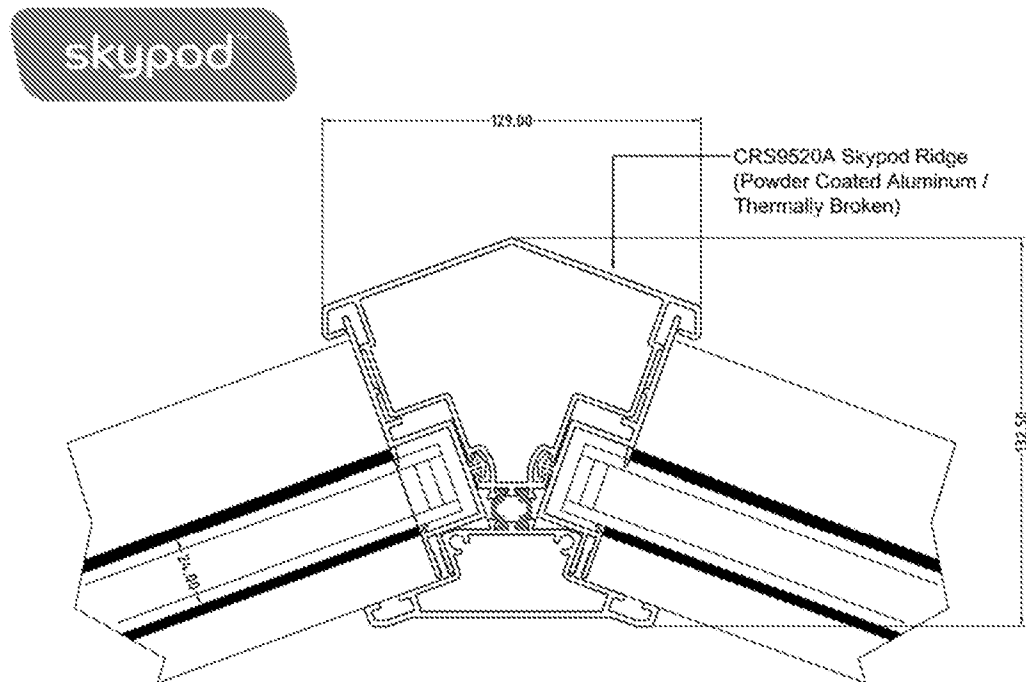

Our Standard glass specification is toughened Pilkington Activ Self Cleaning units giving a U-Value of 1.2W/m²k.

You can upgrade to Premium Glass which has the added upgrade of Planitherm 4S giving a U-Value of 1.0W/m²k.

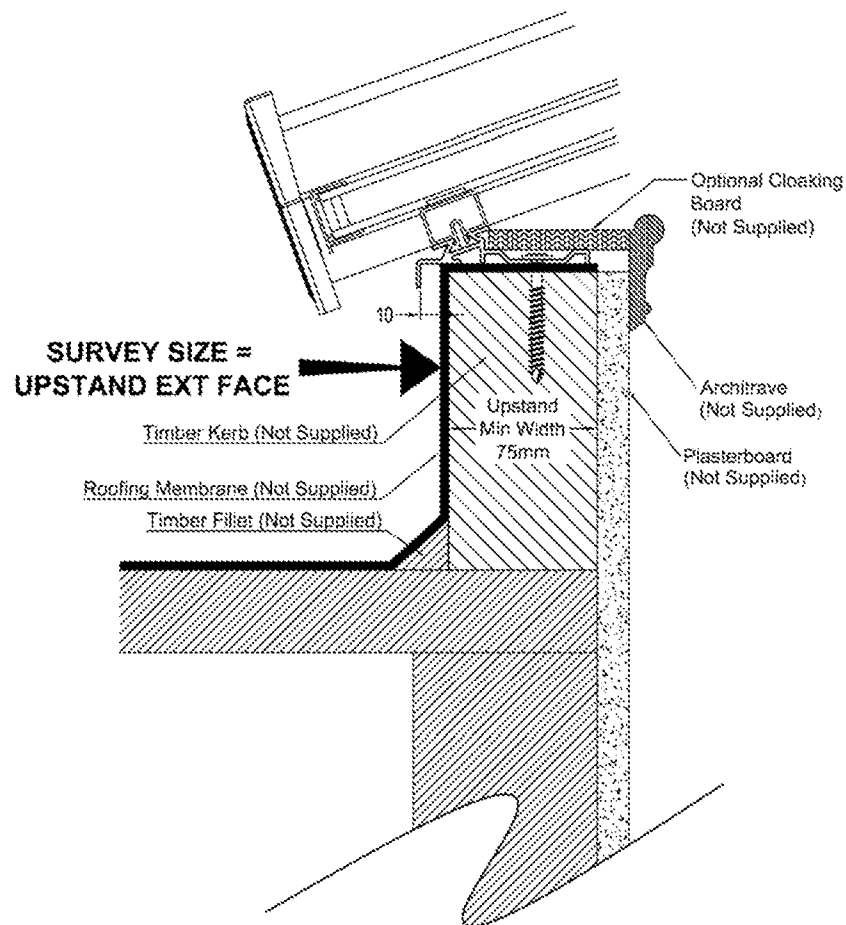

Both options are Pilkington Activ Self Cleaning and more details on the glass can be found in our Technical Section and brochure below.

CONSTRUCTION

SkyPod is a specially designed roof system and not one constructed using conservatory roof parts, which uses a much smaller section giving a much more contemporary sleek look with a maximum glass area.

All our SkyPods are manufactured to the external kerb dimensions. Please see drawing below to show where the measurements need to be taken from;

We Manufacture our SkyPods in our factory in County Durham and build up prior to dismantling and packing up ready for transportation. We leave many of the fixing bolts etc in place to make the building on site much easier and quicker.

FURTHER INFORMATION

Please find below downloads for the Fitting Instructions and the Customer Brochure. Also, please see videos on how to fit our SkyPod glass roof lantern.
