Subject: Kents Farmhouse Climping

Dear Sirs/Madam

Re Kent's Farmhouse, Climping BN17 5QU
Planning Ref - CM/50/20/PL - CM/51/20/L

Thank you for the planning permission for the alterations to the above property. Condition No 1 required large scale details of the joinery being used, and more specifically, the windows being installed to the replacement dormers at second floor level that were removed by the previous owners. I attach elevations and sections of this 4 bay casement window (x2), to be constructed in hardwood and fitted with single glazing to match the original windows.

Please let me know whether you need further information on this particular aspect of the Condition discharge. We are in the meantime

intending to submit to you a minor amendment application, more specifically for Listed building approval that adds two additional windows, a courtyard doorway and a more sympathetic design for the terrace doors off the sunroom.

The National Trust are currently commenting on these changes, and once they have confirmed they are happy with the amendments, I'll send in a formal request.

Yours faithfully

Michael Wilson
