Subject: Mulgrave estate

Hello Claire.

As a resident of Cropthorne Drive, I am writing to register my objection to this development.

I do not feel that the roads, schools and medical infrastructure can support this kind of development. As a mother of 2 young children I firmly believe that this proposal does not offer in any way shape or form any benefits to the village or surrounding area. As it is the village school only accepts limited new entrants each year. Whilst I can appreciate the need for extra housing these important considerations cannot be ignored.

Further more I want to raise the following additional points which support my objection:

- Proposal is outside the neighbourhood plan.
- Recent Flooding of the Mulgrave field.
- Safety concerns regarding the entry and exit from both ends of Horsemere Green Lane.
- Through put of all the additional traffic which cannot be resolved with the simple addition of a larger roundabout.
- The proposal for access and usage of the playground which is on private property.

I hope that these points from a local resident are fully considered when decisions on whether to grant this are made.

Kind regards,
Rebecca Hargreaves
