Dear Sir/Madam

Re: Mulgrave Planning Application CM/1/17/OUT

We appeal against the above planning application on the following grounds –

This application is contrary to the conditions of our neighbourhood plan which the local residents spent a considerable amount of time completing.

The building of over 300 houses which would more than double in size the village – to be built on grade 1 farmland – would be absolutely devastating for the village as a whole, including the residents and the character of the village. This does not account for the amount of traffic which would drastically increase in an area which is already experiencing major delays during the busiest times of the day, i.e., each morning and every night!

Therefore, this application will be of no benefit at all to the residents and area alike.

We would hope you take all the above comments seriously and reject the application.

Yours sincerely
