Hi Katherine - just realised I mixed up the reference numbers, apologies.

This additional information relates to CM/1/22/L, which is the LBC application for internal renovations.

The ref number in the subject line (CM/76/21/HH) relates to the Planning Permission application for a single storey garage, also at 1-2 Kents Dairy Cottages.

Hope that clarifies things.

Best regards,
Peter Hickey

Hi Kathryn,

Further to our conversation earlier today, please see attached three pdf files, one of which gives details of proposed radiator positions/proposed location of the boiler, one which gives indicative location and appearance of intended boiler flue outlet and the third indicates proposed bathroom extraction vent location and appearance externally.

Hopefully these help give useful detail of our plans and our intention to minimise any impact on the external appearance and fabric of the building.

Kind regards,

Peter Hickey
