Dear Sirs,

Re: CM/20/17/PL – Concrete Mouldings Ltd. – Unit H21 Rudford Ind Estate

I write in support of this Application – this is a local company who is having to re-locate from their existing Unit and wish to stay in the area. The Unit H21 is next door to an existing Industrial Building, and has previously been used as an engineering workshop for ten years.

I note that there is no problem with either noise or dust and so can see no reason why this Application should not be passed – as it is a local business wishing to remain in the area.

Yours faithfully,
