Hi Anita,

Thank you for the updated noise assessment. In point 2 of my email of 15th September 2017 I asked if the applicant could revise the report to take into account all potential noise sources and their likely duration during the day to give an overall rating for the site. Although the applicant has taken into account all potential noise sources at 30m rather than 50m, and the likely duration, no overall rating level under BS4142 has been given. Please could the applicant provide this.

I have noted the comments that the applicant has made about dust, and have no further comments on this matter.

Many thanks

Fiona

Hi Fiona,

The current agreed EOT on this site expires this week and the applicant is unlikely to agree to another. Please can you let me have your comments by Wednesday this week .

Thanks

Anita

Hi Fiona,

Please see the attached additional information from the applicant. Please can you advise if this satisfactorily addresses your concerns and whether if acceptable you would like to see any conditions imposed?

Thanks

Anita
