Dear Ms Gardner

I have noted the contents of the validation letter.

In response, please note that a 'Statement of Significance' was lodged. This is a "Heritage Statement".

'Schedule of Works' - A 'Schedule of Impact Rev A' was lodged. This is part of a larger very detailed document which you will have seen and read as part of the pre-app. You will note that this tabular format breaks down the work, explaining what is Significant, the detailed advice of Hutton & Rostron, more information on the proposed works, works carried out, observations, photographic references and an impact assessment. It also provides details of how certain aspects of the work should be carried out.

As a qualified planner and heritage consultant, I consider this to be fit for purpose and proportionate to the nature of this curtilage listed building and having regard to s7 of the PLBCAA 1990 and the building's special interest. There are matters that may require additional details that can be the subject of appropriately worded conditions.

Can you now confirm that this submission is valid and Day 1 commenced that day it was lodged that being 29th June 2018.

Regards
