Condition 2 - see attached detailed section 04 001_02 of external cladding and photograph of the proposed material and stain which has already been delivered to Arun's office last week 16/04/2019. The material is a larch waney-edge shiplap board, lapped to create 250mm board widths. The finish is the darker of the two black samples submitted as indicated on the photograph. This finish is a double-charred finish. We propose charring rather than staining as it is more robust and has greater longevity in the exposed saline conditions.
