Hi Anita

As you are probably aware, this application relates to the disused car park at the entrance to the industrial estate. The car park area is well screened on all sides and the proposed storage containers wouldn't be highly visible

There is rising demand for lower cost storage and this seems an ideal site to make such facilities available. I note that County Highways do not object and I can see Environmental Health don't. I would question the electric charging points proposed by Environmental Health as these will be lock up containers where people will be dropping off and picking things up and not parking or charging for any significant length of time.

I am hopeful that you can support this application and if you require any further information, please let me know.

Kind regards

Nikolas Antoniou
