Dear Mr Anderson,

Consultation from West Sussex County Council

Discharge of conditions 3 (construction management plan), 4 (external design), 5 (dust suppression scheme) of planning permission WSCC/015/26/DIS1 (This application will be determined by West Sussex County Council).

South Coast Skip Hire, Unit H9-H10 Ford Road Arundel BN18 0BD

Thank you for your recent application as above. I am able to inform you that this Authority **has no objection**.

ADC Environmental Health have been consulted, and raise no objection. The submitted Construction Environmental Management Plan is considered satisfactory, and no objection is raised to the discharge of Condition 3. The Dust Suppression Scheme is also considered satisfactory. Whilst it relies primarily on visual monitoring and management controls during the operational phase, this approach is proportionate given the enclosed nature of the development and the separate regulation of process emissions to air through the environmental permitting legislation. On the basis that all measures detailed in the submitted scheme are installed, implemented, managed and maintained as stated, there are no objections to the discharge of Condition 5. As such, the Local Planning Authority have reviewed the documents and have no objection to the proposed development.

I trust this information is of assistance to you.

Yours sincerely

Neil Crowther
