Dear Graham,

I am sorry to let you know that we will not be able to store your peas and oilseed rape after this harvest, as we have for the past few years. We have had to change our cropping and will need to use all our stores for our own crops. I'm very sorry not to be able to continue to help but hopefully this will give you enough time to address your storage shortage before harvest 2022.

Yours

John Langmead
