Dear Ross

Thank you for inviting me to comment. I find the revised plans regarding the proposed internal works and new door acceptable as detailed (subject to condition, including joinery design and finishes). I note, however, that there is no mention of roofing works. This is essential to halt the ingress of water to the building, as described/shown to me during my last site visit. I was expecting this to be part of the application, and not it is omitted. Any roofing works would need LBC.

Regards

Clare
