

DESIGN AND ACCESS STATEMENT

The Dairy, Brookpit Lane, Climping, BN17 5QU

Introduction:

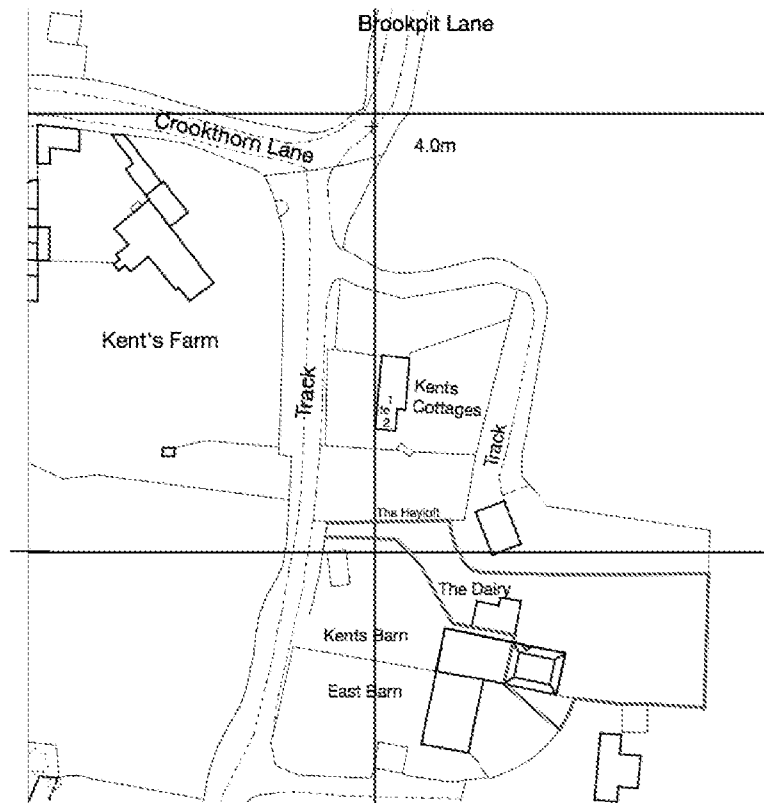

The Dairy is part of an original separation of farm buildings, originally carried out around 20 years ago.

The Dairy comprises an Entrance Hall, Sitting Room, Lounge and bedroom on the First Floor. And 4 no further bedrooms on the First Floor which is created in the roof space of the original building, now utilising an increased flat roof area.

Location:

The Dairy is located off Brookpit Lane, in Climping at the junction with Crookthorn Lane.

**Description:**

The Dairy is of brickwork infill between timber framing, a tiled hand made clay pitched roof, renewed windows and doors throughout, and a hidden flat roof, together with modern skylight (Velux) windows.

The Proposal

The proposal is to insert a window / vision panel between the Hall and the Sitting Room.

Design

Traditional building methods, materials and practices have been adopted together with the use of period timber joints, and lime mortar, plasters and finishes as appropriate in all recently carried out works.

The insertion of the window is to allow light transfer in the Hall and the Sitting Room, within a modern lightweight block wall.

There is no proposed removal of historic.

Use:

Residential. Unchanged.

Amount:

There is no overall proposed increase in the building floor area .

Layout:

The layout provides for a living area which has access from the existing doors and to the terrace adjoining the garden.

Scale and proportion:

There is no alteration to the scale and proportion of the building.

Landscaping: N/A

Appearance:

There is no change in appearance to the building.

Access

The access to the building remains unchanged at each floor and each entrance.
