CM/31/18/L

The proposal is to introduce an internal window into the property. It is evident from the information supplied that a significant amount of work has historically been undertaken to the property.

Reference is made to the fact that the window would provide light for the hallway and sitting room. The window is small in terms of scale and appears to affect modern fabric. It would be helpful to know how the window will be treated i.e. painted or stained? On that basis the proposal will have a neutral impact upon the character and, in this instance, is capable of support.
