FAO Ross Leal

Good Morning,

With regard my recent response to this planning application I wish to change my original response from advice/further information to formal **objection**.

This is due to the importance of clarifying the definitive line through the proposed development and following a site visit my concern over works underway.

Due to the proposal to potentially build directly on the legal line of Public Footpath 174 a legal diversion Order will be required.

My concern is that development affecting the currently recorded legal line of the Public must not begin until and unless the path has been formally accommodated else an offence is being committed and may invalidate any diversion Order procedure.
