Subject: RE: CM/33/17 Mill House Climping - Footpath 174

FAO Ross Leal

Good Afternoon,

I wish to formally withdraw my objection to this proposal.

Following a site visit with the owner and his agent I am satisfied that the Footpath (174) is in keeping with the definitive map. I have emphasised the importance of ensuring the footpath remains unobstructed and safe and convenient for users at all times. The path is not to be obstructed by vehicles, plant, scaffolding or the temporary storage of materials and/or chemicals during any works.

Where development includes structures adjacent to the Footpath I would encourage thought for users and the enjoyment of the Public Right of Way. I would ask that consideration be given for the natural outlook currently enjoyed and which has formed part of this route for many years.

I would welcome any improvements to the route including surface and side vegetation control which I am happy to discuss further in due course.

Please contact me should you require any further information.
