Hello Ross,

My name is Owen Mitchell and I have been given your name in respect of a footpath query relating to a planning application(s) at the Old Mill, at Climping, behind the golf course.

I often use a footpath there at the back of the Mill – which I have assumed is a designated public footpath – but now it seems the (new) owner at the Mill has diverted the path to the edge of a field rather than the existing route.

My queries are.... is that part of a planning application?

If not, is this lawful?

Is the path in question a designated path or is it a private one?

If the path has been diverted without warning I would object to the application(s)

If however this is legitimate (surely not?) could you please advise... I believe the applications are CM/33/17PL and CM/34/17PL.

I await your response,

Many thanks

Owen Mitchell
