CM/38/18/PL

The application relates to the retention of 5 temporary storage containers for ancillary storage. It is noted that the containers are required for the duration of the building works on the site. Once all of the relevant consents have been sought, and the works implemented, the storage containers will no longer be required and should be removed.

It is considered that the retention of the containers is acceptable as they will not form a permanent feature within the grounds of the listed building. As a consequence, there is no objection from a conservation perspective.

It is suggested that a suitable/realistic timeframe for the retention of the containers is approved.
