Dear Anita,

Sorry it's taken me a while to get back to you for this one.

EH would please like to advise that the recommendations outlined in Section 8.0 of Sharps Redmore's sound level assessment (ref.: 1818324, dated 12th December 2018) are followed. If there are any current restrictions to the hours of operation for the existing business, it is recommended these are extended to include the proposed development. Furthermore, this report should be re-assessed following confirmation of the crushing plant. If the estimated emission values cited in this report (point 2.7) are less than the actual noise produced by the proposed plant, either the report should be re-written to account for the louder plant or the proposed plant revised to ensure it falls within the parameters cited in this report.

Many thanks,

Kate.

Hello,

Chris has asked me to run with the Northwood Farm one – I've started looking at the documents but have a two-hour meeting starting at 4pm and a visit at 6.30pm so won't have time to finish it today.

I'll get comments to you as soon as I can.

Thank you,

Kate.

Thank you Kate.

I am still awaiting another WSCC consultation response from environmental health CM/3/19/WS, Northwood Farm, Burndell Road are you dealing with that one too?

Regards

Anita
