Hi Kathryn.

Apologies for the delay I was away last week.

I'm happy to accept 400cd/m².

All the best.

Dear Mr Bennett,

I am currently looking to prepare the Officer's Report on the signage application at Maidenhead Aquatics. I note from the application form that the box fascia sign will be internally illuminated at 634cd/m2. At the moment due to the excessive illumination levels the application is likely to be refused.

Under WSCC guidance for this rural area (area E2) the allowed limit for illumination levels is 400cd/m2. In order for the application to be approved I would need your confirmation that you are happy to accept the changes. The illumination levels would then be controlled under condition.

I would be grateful if you could confirm in writing your acceptance of the alteration by the 11th March so that a decision can be issued before the expiry date of the 16th.

Kind regards,

Kathryn Welch
