Dear Al-Bazaz,

Town & Country Planning Act 1990 (as amended)
Town & Country Planning (Development Management Procedure) (England) Order 2015

Application for Planning Permission for Works or Extension to a Dwelling

Development: Part single, part two storey side and single storey rear extensions and creation of a drive, following demolition of existing extensions.
Location: 2 Rose Cottages Climping Street Climping BN17 5RH

Thank you for your recent application which I received on 21st November 2024. It is being validated by Ms Iqraa Malik who will be able to assist you should you have any questions.

I regret that I am unable to accept your documents as a valid application until the following item(s) have been received or resolved :-

Site Plans

According to our GIS, Climping Street is not a private road, therefore there is no need to extend the red outline all the way up to Crookthorn Lane on the site plans, please review and amend.

Block Plan

You are required to have dimensions from the proposed extension(s) to all site boundaries. Please amend.

Elevations

Please submit electronic plans in pdf format clearly labelled proposed fence elevations at a scale of 1:50 or 1:100. Further details can be found in the Validation Requirements List.

Visibility Splay

West Sussex County Council require that a visibility splay is provided. A splay is formed for a 30 mph speed limit road by measuring from a point 2.4m back from the kerb edge in the centre of the proposed access. A line should then be drawn from either side of this point for 43 m in each direction to the nearside edge of the carriage way. The splays must intersect land only within the control of the applicant, or within the publicly maintained highway.

The distance will increase with the speed limit of the road. If the road is 40 mph speed limit then the distance should be 120 m either side. For speeds above this please contact West Sussex County Council Highways for advice on what would be acceptable.

Proposed Works

Please confirm whether you are proposing a new crossover, if so, you are required to submit a scaled plan of the crossover showing the width and depth of the proposed crossover. Along with this, a visibility splay must be submitted, please see below for further information.

Biodiversity Enhancement Statement

Please submit a Biodiversity Enhancement Statement. This is a local validation requirement completely separate to the Biodiversity Net Gain requirements and as a minimum, it should state how the application seeks to protect and improve the existing on-site natural environment. Please refer to the validation requirements list for further information.

Lidsey Drainage Impact Assessment

This application is for development with the Lidsey Wastewater Treatment Works Catchment Area and a statement explaining how foul and surface water is to be drained from the site is required. The statement must include what measures will be implemented by the applicant to reduce the impact of foul and surface water drainage in the catchment area. Further details of what must be included can be found in the Validation Requirements Lists.

For further detailed information on validation requirements please go to our website and refer to the requirements list for this type of application: <https://www.arun.gov.uk/making-a-planning-application>

If you are unable to access the website, please contact this office so a copy can be sent to you.

Where the information requested above relates to a local validation requirement, you may request that the requirement is waived. The information requested should be reasonable having regard to the nature and scale of the proposed development and about a matter which it is reasonable to think would be a material consideration in determining the application. If you do not feel this is the case, you can serve a notice on the Council, specifying which particulars or evidence you do not consider meet this test of reasonableness. You must state which items you disagree with and set out the reasons why you hold the view, please quote the application reference in your letter or email. The Council will then consider your case and respond. It should be noted that there is no right to challenge the national requirements as these requirements are contained in planning legislation.

If providing additional documents or information, please email it to: planning.responses@arun.gov.uk with a covering email clearly explaining what is being provided. Do not resubmit it via the planning portal as we receive all the original information plus any amended information and it is not clear what has changed. Please provide the above by **11th December 2024** or your application will be closed as incomplete and where a fee has been paid, I will retain £40.00 (or the entire fee, if less than £40.00) to cover the cost of administering the return. If you have difficulty meeting this deadline please contact the above officer to agree an extension to this time scale. Once the application has been closed, you will need to submit a fresh application if you still want to proceed.

Yours sincerely

Neil Crowther
Group Head of Planning

For details of how the Council will deal with your data please refer to our privacy notices on the website
<https://www.arun.gov.uk/privacy-policy/>

If you have provided an email address, all correspondence including the decision notice will be sent by email. It is therefore important that you keep us informed if this changes during the course of this application.
