National Highways' ref: #14767

Dear Michael

Thank you for forwarding the amended Construction Method Statement for CM/48/21/RES.

All loose loads on vehicles using the SRN must be adequately sheeted, 'best endeavours' is not sufficient. Therefore the statement "*We will endeavour to ensure any loose loads on vehicles using the strategic road network are adequately sheeted and this message will be relayed to our supply chain, sub-contractors and drivers to ensure that, to the best of our ability, this is complied with.*" needs to be amended to

“We will ensure any loose loads on vehicles”

If this amendment is made, we would be content with the Construction Method Statement.

Kind regards

Elizabeth Cleaver, Assistant Spatial Planning Manager

Good afternoon Michael,

I hope you are having a nice day.

I note that National Highways have asked that the Construction Method Statement be amended to cover the avoidance of construction traffic using the SRN during peak hours and to ensure that, with the best endeavours, vehicles carrying loose loads are sheeted. I have therefore update the CMS accordingly (please see attached) which I hope addresses their concerns.

If you need anything further please let me know.

Kind regards,

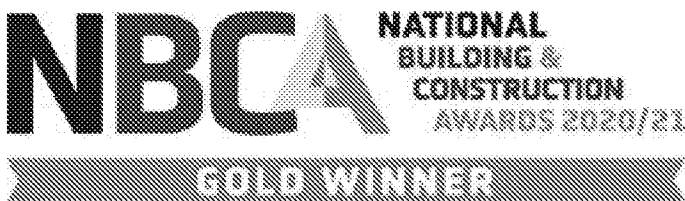

Katherine Richards
