Subject: CM/48/21/RES

Dear Planning,

Environmental Health **object** to this application on noise grounds.

The noise report (Noise Assessment, Land West of Church Lane, Climping, 19th August 2021, Phlorum, Project No 9709/Rev 1) is very general, and whilst it does refer to the site and the noise monitoring, it is lacking in detail around some significant areas. It does not reference the following conditions which were implemented on appeal:

- 4 – application to be in accordance with the Acoustic barrier/Noise bund in P14 4899 03
- 17 – details of acoustic barrier
- 18 – post validation testing

Therefore Environmental Health object on the basis of insufficient information.

Please could the noise report be amended to include details referred to in the Inspector's conditions above. Environmental Health would expect to see specific information relating to specific plot numbers and their acoustic requirements as part of this.

Regards

Fiona Fitzgerald
