Subject: Proposed building on field on Church Lane Clymping

CAUTION: This email originated from outside of the organisation. You should take extra care when clicking links or opening attachments - if you are unsure the content is safe contact the IT Helpdesk before clicking or opening.

I live on Church Lane in Clymping and currently the field where it is proposed to build 300 houses is under water. The water is running out of the field across the road and flooding the driveway of Field Place on the east side of the road. The vast majority of local residents do not want this field built on for a variety of valid reasons, the main one being the flooding issue. In fact we want ALL development in this area stopped as a recent report has highlighted that this

area WILL flood in the next few years. You only have to go to Clymping beach to see the flooding there due to the sea defences being breached on several occasions.

We elect the councillors and remain hopeful that they will act according to the wishes of local residents.

I look forward to hearing from you with confirmation that this field will not be built on.

Mark Miller
