Subject: Clymping Mill Biodigester WSCC/066/19

Good afternoon,

A revised plan has been submitted for the proposed development at Clymping Mill (aka Clymping College).

The biodigester has been relocated to the location of the existing cesspit to the west of the buildings. The existing waste management infrastructure will be replaced with new, upgraded infrastructure, and a field drain will be introduced to the western site boundary. The EA have also been reconsulted on this application.

Please see the updated plans attached. All other plans can be found on our [website](#).

Please could I have any comments you may wish to make on the application by the 14th of December.

Many thanks,

Edward Anderson

Assistant Planner, County Planning, Planning Services
