Save the environment - think before you print.

[REDACTED]

Dear Suzanne ,

Further to our earlier conversation, I attach what I understand to be the amended or revised FRA from STM Environmental dated 6th December 2019.

Considering the urgency of the situation, If this is not fit for purpose can you advise me as soon as possible by return.

Thank you for your assistance with this matter,

Kind regards,

Andrew Sargent.

>

> Your timing is very good as I had a conversation with my colleague this morning about this and I am in the process of sending you a response. It should be with you very soon. It has taken a bit longer due to the issue of the footings being in place, it would appear that there is a way around it without starting again.
