Subject: FW: CM/6/18/PL. Sharps Redmore sound level assessment

Hello Fiona.

Thanks for taking the time to discuss this just now.

We following points were covered, with their outcomes:

1. The Report (Sharps Redmore, 23rd Feb 2018) makes the sound level predictions to the buildings at/around 'Tithe Barn'. Those predictions can be deemed to apply to Meadow Cottage and Paynters Croft. Meadow Cottage has the self-catering holiday let and it is that which is named 'Tithe Barn'.
2. The sound level assessment forecasts an 'impact' amounting to +3dB at Tithe Barn. (Table 6.7 of the Report). You were content with that finding and its application to the other properties.
3. Sharps Redmore will issue a letter making reference to the Report and acknowledging Meadow Cottage and Paynters Croft as being in residential occupation. The assessment findings and your acceptance stand.

Again, thank you for your input.

Kind regards,

Dean Barke
Director

Hello Fiona,

I just left a voice message on your office number.

If you have a moment, I would be pleased to hear from you. I would like to help clarify the location of residential receptors I considered in my Report dated 23rd February 2018. The annotated plan attached I think helps a great deal.

Thank you and kind regards,

Dean Barke
Director
