Dear Mrs Johnson,

Please confirm the amended description is satisfactory. — yes Woodpecker Camping Field, Crookthorne Lane, Climping is good thankyou.

On the application form, 60 parking spaces has been indicated (question 10) whilst the block plan shows 17. Please either amend the application form or the block plan to coincide.
the 60 car park spaces are to allow 1 car per pitch, for the cars parked by the tents. 17 car park spaces alongside the A259 north end close to the smaller pitches and 43 distributed throughout the field parked beside each pitch.
Wasn't really sure how to describe this.

Please confirm if there is any significance between the dotted lines and the solid lines indicating the position of the pitches on the block plan.

I cannot see any solid lines on the block plan, for the pitches as all the lines are dotted to indicate position on the grass, there will not actually be any dotted lines painted on the grass, but there will be markers to identify each pitch number for booking purposes. There are also dotted lines around the edges of the grass field to indicate areas where the grass will be left rough to create buffer zones.

Please provide an elevation of the proposed fence panel screen and provide the measurement in metres.

Please provide floor plans and elevations for the bin store.

Please provide an elevation of the fence at the bins store and provide the measurement in metres.

For further detailed information on

Please find amended plans to reflect the requests above.

I would be able to come into your offices later on today, either before 1.30pm or after 3pm to go through the details with you if that helps ??

Let me know on my mobile as I do not have e mail on my phone,

Kind regards,
