Subject: Planning Consultation : CM/7/20/PD

EH comments in relation to CM/7/20/PD

Having reviewed the plans for this permitted development, the Environmental Health have no comments to raise.

The council holds no records of any potential contaminated land on this site, however, it goes without saying that if the developer finds ground contamination during their groundworks and construction phases, all work will stop immediately and the Local Planning department will be contacted immediately. Any discovery of Asbestos bearing materials will also need to be notified immediately to the Health and Safety Executive (HSE).

Kind regards

Tendai Pinden
