3 Description of Development

Prior notification under Schedule 2, Part 3, Class Q for the change of use of agricultural building to dwelling (C3).

4 In pursuance of their powers under the above Act and related Orders and Regulations, Arun District Council as Local Planning Authority hereby **GRANT PRIOR APPROVAL** for the above proposal in accordance with the information that the developer provided to the local planning authority

CONDITION

This development under Class Q is permitted subject to any development under Class Q(a) or Class Q(b) being completed within 3 years from the date of this decision.

- 1 No part of the development shall be first occupied until 2 on-site car parking spaces have been constructed in accordance with plans and details to be submitted to and approved in writing by the Local Planning Authority. These spaces shall thereafter be retained at all times for their designated use.

Reason: To provide car-parking space for the use in accordance with policy T SP1 of the Arun Local Plan.

- 2 No part of the development shall be first occupied until covered and secure cycle parking spaces (minimum of 1 space) have been provided in accordance with plans and details to be submitted to and approved by the Local Planning Authority. These spaces shall thereafter be retained at all

times for their designated use.

Reason: To provide alternative travel options to the use of the car in accordance with policy T DM1 of the Arun Local Plan.

- 3 Details shall be compiled by a competent acoustician on sound insulation and noise reduction for the building and shall be submitted to and approved in writing by the Local Planning Authority. The scheme should take into account the correct number of air changes required for noise affected rooms. The works specified in the approved scheme shall then be carried out in accordance with the approved details prior to occupation of the premises and be retained thereafter. Prior to the commencement of the development hereby approved, a scheme shall be submitted to demonstrate that the internal noise levels within the residential unit will conform to the "Indoor ambient noise levels for dwellings" guideline values specified within Table 4 under section 7.7.2 of BS 8233:2014.

Reason: To protect the amenity of local residents in accordance with policies D DM1, QE SP1 and QE DM1 of the Arun Local Plan.

- 4 Prior to commencement of the development hereby approved (or such other date or stage in development as may be agreed in writing with the Local Planning Authority), the following components of a scheme to deal with the risks associated with contamination of the site shall each be submitted to and approved in writing by the Local Planning Authority:

1. A Preliminary Risk Assessment which has identified: all previous (historical) uses; potential contaminants associated with those uses; a conceptual model of the site indicating sources, pathways and receptors; and potentially unacceptable risks arising from contamination at the site.

2. A Site Investigation Scheme, based on (1) above to provide information for a detailed assessment of the risk to all receptors that may be affected, including those off site.

3. Based on the Site Investigation Scheme and the detailed risk assessment (2), an options appraisal and remediation strategy giving full details of the remediation measures required and how they are to be undertaken.

4. A Verification Report providing details of the data that will be collected in order to demonstrate that the works set out in (3) are complete and identifying any requirements for longer-term monitoring of pollutant linkages, maintenance and arrangements for contingency action.

Note: Any changes to these components, (1) to (4) require the express written consent of the Local Planning Authority.

The scheme shall be implemented as approved above and, prior to commencement of any construction work (or such other date or stage in development as may be agreed in writing with the Local Planning Authority), a Verification Report demonstrating completion of the works set out in the approved remediation strategy and the effectiveness of that remediation shall be submitted to and approved in writing by the Local Planning Authority. The report shall include results of sampling and monitoring carried out in accordance with the approved verification plan to demonstrate that the site remediation criteria have been met. The report shall also include a long-term monitoring and maintenance plan for longer-term monitoring of pollutant linkages, maintenance and arrangements for contingency action, as identified in the verification report, and for the reporting of this in writing to the Local Planning Authority.

Reason: To protect the amenity of local residents and future occupants of the dwelling in accordance with Policy QE DM4 of the Arun Local Plan.

INFORMATIVE: A formal application for connection to the public sewerage system is required in order to service this development, please contact Southern Water, Sparrowgrove House, Sparrowgrove, Otterbourne, Hampshire SO21 2SW (Tel: 0330 303 0119) or www.southernwater.co.uk. Please read our New Connections Services Charging Arrangements documents which is available to read on our website via the following link <https://beta.southernwater.co.uk/infrastructurecharges>.

INFORMATIVE: If the applicant intends to drain surface water to a watercourse, Land Drainage Consent will be required.

For the avoidance of doubt the approved details are the proposed floor plans and elevations submitted on Drawing No. PD-002 Rev A, received 03/06/2020.

INFORMATIVE: Surface water should not drain to the public foul sewer, and any alterations to surface water drainage must be designed and constructed in accordance with Building Regulations.

INFORMATIVE: The applicant should note that under Part 1 of the Wildlife and Countryside Act 1981, with only a few exceptions, it is an offence for any person to intentionally take, damage or destroy the nest of any wild birds while the nest is in use or being built. Birds nest between March and September and therefore removal of dense bushes, ivy or trees or parts of trees etc. during this period could lead to an offence under the act.

INFORMATIVE: This notice does not give authority to destroy or damage a bat roost or disturb a bat. Bat species are protected under Section 39 of the 1994 Conservation (Natural Habitats etc) Regulations (as amended), the 1981 Wildlife and Countryside Act (as amended) and the 2000 Countryside and Rights of Way Act. It is illegal to damage or destroy any bat roost, whether occupied or not, or disturb or harm a bat. If you are aware that bats roost in a tree(s) for which work is planned, you should take further advice from Natural England (via the Bat Conservation Trust on 0845 1300228) or an ecological consultant before you start. If bats are discovered during the work, you must stop immediately and contact Natural England before continuing.

INFORMATIVE: The owner(s) of any commercial property (warehouses, offices, etc.) built before 2000 are legally obliged to hold a copy of an asbestos register for each property in their portfolio. As the proposed development is being renovated to residential, the Council need to be satisfied that if any asbestos previously identified is still present, it is either removed or suitably managed to minimise risk to human health as there is no safe threshold for asbestos exposure. A copy of the asbestos register, and any remedial strategy (where appropriate), must be provided in writing to the Local Planning Authority prior to any works commencing.
