Littlehampton.

Ref. EG 15/19/HH.

Chrichmere Road. Eastergate

With Reference to

the above application - the chimney of which has been in position for several weeks prior to any notices being posted. It is in my opinion of an unacceptable height and position on a residential property and viewed clearly from the front of my house and noticed unfavourably by guests using the bedroom and we were in agreement that it would look more suitable on an agricultural building. With recent concerns over pollution, I hope the size of this installation can be inspected and consideration given to what appears to be retrospective planning permission.

Yours Sincerely
