For: Mr & Mrs J Smith
41 Downview Road
Barnham, PO22 0EF

Description	Quantity	Rate	Amount
-------------	----------	------	--------

Removal of 2 x Ash trees to stump height, stumps to be removed below ground level(we will try to remove majority of stump however it close proximity to watercourse may make it impossible).

Removal of fence from trees and shrubbery surrounding trees to create access points.

Boards to be placed over patio for protection.

Access will be required to neighbouring field will be required to facilitate removal of debris(client to arrange).

Severing of Ivy at base upon acceptance of quote to aid tree climbing & access.

All large diameter waste to be cut into moveable, manageable sections & stacked at rear of garden for client to log/split.

All small diameter waste to be removed & disposed @ recycling facility.

The trees are situated within a tree preservation order area therefore an application would need to be submitted & approved before any work can commence.

The application will be submitted & managed by Urban Nature however does not guarantee approval. The trees are of poor condition and are showing signs of Ash dieback & decaying therefore I believe this would be favourable on your behalf considering the close proximity to property.
