

Planning Application Reference EG/23/15/PL

Evidence for Discharge of Condition 6

Suitable provision for owl habitat:

A barn owl box will be installed in an adjacent barn immediately west (behind) the barn that is due to be converted. The Barn Owl box will be purchased from the ~~Barn Owl Centre~~ and will be similar to that shown below.

Aldingbourne Trust

Suitable provision for bat habitat:

A bat box will be installed on the outside of the new annex. It will be similar to a 'Wildcare' Kent Bat Box (below), as recommended by the Bat conservation Trust and designed by the Kent Bat Group.

and built by Aldingbourne Trust

Description More Info Delivery Returns

Wildcare's Kent Bat Box provides a range of crevice sizes, allowing for different species and temperatures. It has one small 15mm crevice, one larger 20mm crevice and a 20mm open crevice formed by the back of the box. Fixing holes are drilled on either side of the bottom. Mounting accessories not supplied. Not retail boxed.

- 18.5cm wide x 14.5cm deep x 37.5cm high, approx.
- Three crevice options
- Self-cleaning - droppings simply fall out of the bottom.
- Fixing holes in side battens
- Made from 22mm thick untreated timber
- Based on an original design by the Kent Bat group

Both on order from Aldingbourne Trust as at 8.3.2018.
Delivery anticipated from 23.3.2018. 'Photo's to follow when in situ.
