Comment form Greenspace

Further to submission of DWG 27/307 landscape detail we advise that the information is still lacking in detail. We require that the screening trees indicated, whilst suitable in species choice need to be detailed in plan form showing (ideally Latin name – so as to be clear of species being proposed) and in addition quantity proposed and the size of these at time of planting. It is assumed that as they are being proposed as screening trees then they should be at least as standards or feathered tree size.

We recommend that this information should be submitted for approval.
