Simon,

Please find attached the updated drawing for Eastergate, formerly amended to show the latin names for 1.8m trees to be planted to provide some landscaping. The updated drawing has been given a revision number as requested. I trust that given the email below from Sue, you are now able to confirm discharge of the outstanding matters for Eastergate WTW.

Kind regards

Tracey

Dear Tracey / Simon

Thank you for your telephone call earlier Tracey and submission of the revised Landscape Details plan.

I can confirm that I would now recommend to planning no objection to the proposals submitted and that the drawing now includes the previously lacking information.

Kind regards

Sue Howell

Subject: Eastergate WTW ref: EG/21/17/PL - Updated drawing confirming tree species to be planted at 1.8m height

Sue / Simon,

Further to our conversation this morning, please find attached the annotated drawing showing the latin names of the trees to be planted.

Native provenance (SE England) trees have been purchased from Mill Farm Trees, near Winchester. The invoices on page 2 of the attachment confirm the trees purchased are 175-200cm in height. The note on the bottom right of the drawing confirms that the trees are a minimum height of 1.8m.

As discussed, I have the trees in pots and am desperate to get them planted in the ground at the site, where they can then be regularly watered.

Prompt confirmation that we can proceed with the planting at Eastergate WTW on the basis of the attached information would be extremely helpful. Thank you.

Kind regards

Tracey

Comment form Greenspace

Further to submission of DWG 27/307 landscape detail we advise that the information is still lacking in detail. We require that the screening trees indicated, whilst suitable in species choice need to be detailed in plan form showing (ideally Latin name – so as to be clear of species being proposed) and in addition quantity proposed and the size of these at time of planting. It is assumed that as they are being proposed as screening trees then they should be at least as standards or feathered tree size.

We recommend that this information should be submitted for approval.
