Juan

On page 22 of the Planning Statement for this application the applicant refers to comments by the Inspector in relation to 'the recent appeal decision on this site'. Is it possible to have sight of that appeal decision please.

I am also considering the need for a 'NO DIG' zone in the rear gardens of these properties. To ensure the soakaways will work in the future there will be a need for no planting on and around the area of the soakaways which are each a nominal 30 m² in area. The soakaways are actually designed so that the top is at or above the surface level of the garden. How can such a requirement (no dig / no plants) best be incorporated to ensure long term adherence?

I understand you are on leave so will await your response on your return.

Regards
