Subject: FW: Planning Application No.EG/35/12

Dear Mrs Coney,

Further to my telephone conversation with Mrs. Honey-Bayes a few moments ago, I refer to my email and attachments below sent to Mrs Johnson by email on 7th June (with the cheque sent by post) in response to her letters dated 9th and 30th May which requested further information to be submitted by 13th June 2012. I have now received an email from her today saying that the application has still not been registered and has now recorded as 'incomplete' but very frustratingly no reason has been given. As far as I am aware all the information requested has been supplied as I have not been informed differently.

Please can you clarify the position as a matter of urgency as the application was made requested by the Council with the alternative threat of enforcement action. Mrs Leeson, who I understand would be the Council's case officer, has phoned me today and said that she has visited the site and that in principle, she can see no planning objections to the regularising planning application. In these circumstances, it would be unreasonable if the Council were now to pursue enforcement action and prompt an unnecessary and avoidable appeal.

I hope therefore, the Council will review its position regarding the status of this application or at very least explain the reasons why it has not been validated in light of the further information that has been submitted and give the applicant a chance to remedy any deficiency in this respect.

Yours sincerely,

M. Pickup
